

# PSBM-50

## Shackle Brushing Machine

### FEATURES & BENEFITS

The Prestec PSBM-50 Shackle Brushing Machine is the solution for more efficient workflow by virtually eliminating the need for hand scrubbing of the shackles and components.

With a durable stainless steel construction, the PSBM-50 is designed to minimize wasted time and resources while providing high-level sanitization of the line.

This 10-brush system uses special grit-impregnated bristles that clean and polish the shackles which reduces down time due to dirty shackles or overhead chain. The reliable pneumatic lift system allows for accurate placement every time.

#### KEY BENEFITS

- ▶ Labor reduction
- ▶ Hot water reduction
- ▶ Reduces total water usage
- ▶ Reduces load on wash down pump and hot water systems

#### OPTIONAL ADD-ONS

- ▶ Air Lock Safety

*SERVICE...It's what makes the difference.™*
